Thanks Eric,

I will review the document and will also get the word out to other Tribal members who may want to comment. Hope to talk to you soon. Just have to say...I know that you can not do anything about it but the system is a scenic nightmare and it is all up slope above the drainage!

I would also like to know if the well that is located north of the development had been tested? Marie

Subject: Pineview Subdivision draft permit

Hi Marie,

Per the voicemail message I just left you...the internet site is:
<http://www.epa.gov/region9/water/underground/pineview.html>.

This information is part of the Public notice that will be going out this Friday in the Carson City Nevada Appeal and the Minden Record Courier announcing a 30-day comment period for the draft permit (Aug 6th to Sept 5th). The entire permit (including the appendices) will be available at the Minden and Carson City public libraries within the next couple days. Please let me know if there are other people who would be interested in receiving information regarding the permit.

On another note, please let me know if/when there are any concrete plans for a casino there as I'd really like to review the wastewater plan as early in the process as possible. Also, is anything happening with the Buffalo Springs project over the ridge from Bodie Flats?

Thanks and talk to you soon,
Eric
